6	7	8	9	10	11	12

Student and Parents will receive a powerful and vital tool that provides:

- Organizing tips
- A place to keep all needed documents, tests and information about each college.
- An interactive calendar that keeps you organized—know when & why you need to accomplish a specific task.
- Tips to prepare for a college interview.
- Apply strategies and ideas of how to decide which colleges are right for your student.
- Be privy to insightful and timely information for your student to increase their admission chances as well as increase both merit and financial need possibilities- vital in making college more affordable.

This tool will help the student stay on track and it will allow you to keep track of you child's progress, stay informed about the latest college admissions news and feel confident that your child has a plan in place to help them through the entire college process. You can send them reminder notes or thoughts, ideas and other helpful things to assist them along the way. You can even have a certified college planning specialist oversee student activity (available in different service packages—contact us to discuss options). This admissions/guidance program is useful and timely for all students in High School.

**Not just for the Junior or Senior HS Student!**
